

# HOPWELL VALLEY ENGINEERING, PC

*Engineers and Planners*

**Hopewell Valley Engineering, PC (HVE)** is a civil engineering firm (Certified SBE) founded in 1988. The firm consists of engineers, technicians, and support staff which includes two (2) licensed professional engineers. All of our professionals are licensed in the States of New Jersey and Pennsylvania. We provide engineering services to private clients, local municipalities, and state agencies.

Private development work includes residential, commercial and industrial site plans and subdivisions; water and wastewater design; roadway design and stormwater management design. These projects are located primarily in Mercer, Hunterdon and Burlington Counties in New Jersey.

# HOPWELL VALLEY ENGINEERING, PC

*Engineers and Planners*

The firm has previously acted as Municipal Engineer and/or completed special projects for many other area municipalities.

*MULTI-USE TRAIL PROJECTS*

Our firm has extensive experience serving a wide variety of client needs. We utilize the latest in technology and software, and tailor our methodologies to meet the requirements of each project. This includes sophisticated stormwater management and engineering designs. We are also well versed in using the latest AutoCAD software to prepare the plans needed to support our client's projects.

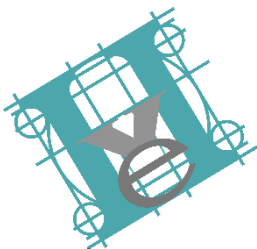

Our office is located at 1600 Reed Road, Suite A, Pennington, NJ 08534.
